If he fails to appear the \$1,000 bail bond will be declared forfeited. The Ross murder case was continued till next Court.

BOARD GOT THROUGH

Another Link in the Chain Around Poor Taxpayers

The Board of Equalization adjourned yesterday after a session of fifteen days and a payroll attached thereto aggregating \$315.

Talking about a useless expenditure, here is where the bug could be driven into the money barrel good and tight. Instead of seven members performing the functions of the Board two good men could do the work as well, and thereby a saving to the county of \$225.

Then again, why not make an assessment hold good for at least five years, instead of an annual assessment. The plan is being utilized to an advantage in other places, why not introduce it here? One assessment in five years would be another tremendous saving, besides it would be more acceptable and give general satisfaction to the taxpayer.

MORE TAXES

The Powers at Frankfort Need the Money Very Much

Representative James S. Morris has introduced a bill in the Legislature, which was ordered printed and referred to the Committee on Revenue and Taxation, that about covers everything on the land and under the seas. It is styled House Bill No. 1—State and County Taxation.

If there is anything Mr. Morris has failed to put in his schedule, it is not visible to the naked eye.

What the authorities would do with the immense revenue arising from such a bill, should it unfortunately become a law, is a puzzle to the ordinary layman.

It is certain that it would drive out of the state many individual firms as well as millions in capital.

For instance—

To keep a tavern or hotel with privilege of selling by retail spirituous, vinous and malt liquors, the tax would be \$310, being an increase of \$150.

To retail malt liquors \$100.

To retail spirituous and vinous liquors \$200, increase \$100.

To retail spirituous, vinous and malt liquors \$300, increase \$150.

Auctioneer \$5, barbershop operating one chair \$2.50 and each additional chair \$1, each billiard or pool table \$20, billposters \$10, selling Coca Cola \$5, eating houses and restaurants \$5, steam ferries \$25, shooting galleries, soda fountains, theaters and on down the list—ad infinitum.

On the above basis it would cost a saloon-keeper in this city over \$600 for city and county license.

How many can stand the raise?

A WORD ABOUT OUR \$7.50 SUIT AND OVERCOAT SALE!

Which, by the way is the most successful sale we ever organized, "especially so to those who buy them." It may be that the exceedingly low price misleads some people and who don't think it worth while to see these garments. We ask them to look at suits and overcoats that other clothiers sell at \$10 and \$12 and compare "OURS" that we are selling at \$7.50. "Some of the most prominent merchants in Maysville are buying them," and wonder at both quality and price. To please everybody we are selling our finest Suits and Overcoats at the same proportionate prices. Make or lose, this sale will continue until our new spring goods begin to arrive.

WHAT a glorious Democracy the United States will be when all the offices are filled by life-timers.

ONLY a few more turns of the wheel and this country will be in complete control of an official class.

FLEMING county's Prohibition Law might justly be styled, An Act for the Benefit of Maysville Booze Foundries.

WONDER if the Civil Service, which is such a promoter of honesty, would stop bond forgeries if applied to brokerage firms.

WITH the "Bosses" to pick out the office-holders, and the Civil Service Law to keep them in office for life, where are we the people at, anyhow?

THAT fellow PRIOR, who forged \$3,000,000 worth of bonds over in Cleveland, must have gotten his financial education from his neighbor and fellow-citizen, Mrs. Cassie Chadwick.

UNDER the new revenue law, if it passes, there are some things that will be expensive. For instance, the present license to sell bowie knives, dirks, brass knuckles or slung shots costs \$100, but the new bill provides for a license of \$500, it being the idea that no one has any business to sell such weapons, and they should be taxed out of the state.

THE Police Judge of Cincinnati has decreed that Policemen shall not use an axe in knocking off the lid.

CONGRESSMAN GARDNER of Ohio isn't very enthusiastic over Civil Service. He says—

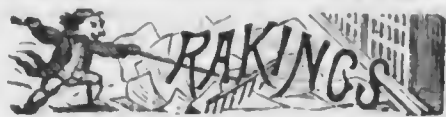

"I have always held that Civil Service is the mother of graft in public office, and I believe that now. The moment state or Government employees feel they are secure in an indefinite tenure of their positions because they are under Civil Service, that moment the grafting begins."

CONGRESSMAN JOHN WESLEY GAINES of Tennessee has offered a bill to create a Retrenchment Commission to reorganize departments, abolish unnecessary bureaus, reduce salaries and expenses, regulate the system of internal improvements and revise pension lists.

The bill proposes that the Commission shall consist of a Republican, a Democrat, a Labor Party man, a Single Taxer and a Populist, of "high practical business experience," appointed by the President, at \$10 a day and expenses for each man.

The Commission shall set about immediately the work of systematically investigating each of the civil departments of the Government, methods of business employed, hours of employees, number of clerks, chiefs, secretaries, etc., to ascertain simpler and cheaper methods of running the Government and "provide rules which shall exact of officials and employees as careful and diligent work as is exacted by private business concerns."

And the pity of it all is that there's no likelihood of the bill becoming a law.

Care Counts

The issues of life and death depend on the potency of a drug sometimes—often than we are apt to think. When your physician prescribes a remedy he expects certain results. If the remedy supplied be lacking in purity or strength it may fail in its purpose.

We think of these things. We take care to see that every drug we use in prescriptions is absolutely pure and of standard potency. We are careful about the compounding also. We have had ample experience, and can assure you that if you permit us to compound your prescriptions you can feel secure about them.

UNCLE SAM'S FELONS

Have Built the Most Magnificent Prison in the World

Correspondence Louisville Herald.

LEAVENWORTH, KANS., January 12.—Eight hundred men whose names have changed to numbers, tolling in silence, building walls behind which to expiate their crimes against society—sullen soldiers of ill-fortune whom the world has cast from its heart.

Such is the great army that moves each morning in double file from the strong white cells of the Federal Prison to labor without compensation that Uncle Sam may have the finest prison house in all the world—a prison house of such magnificent appointments that the blinding shame of its helpless inmates turns to dull amazement in contemplation of its architectural beauty.

For seven years this refuge for the Nation's unruly has been building, and for seven more years convicts will toil ten hours a day, six days a week, before it is finished. If the prison were builded by free labor its cost would aggregate \$6,500,000.

The walls are 900 feet long on the North and South and 800 feet on the East and West, and rest on solid bed-rock twelve to fifteen feet below the surface of the earth. The walls are thirty-five feet high, five feet wide at the base, two feet wide at the top, and built of vitrified brick so smooth that nothing human or animal can gain a foothold on it.

Sixty armed guards superintend the work of the convicts. The brick was all made by the convicts. A steam railroad connects the prison yard with a Government stone quarry one-half a mile away, and convicts quarried the stone, hewed it and put it in place. The electric wiring, the plastering, the placing of the cells were all done by the prisoners.

With the exception of the hospital and administration building and two great cell houses, all of the buildings inside the enclosure are finished.

Probably a cleaner, more sanitary, finer appointed prison house exists nowhere in the world than this one. The interiors of all the buildings are as white as paint can make them. The massive tiers of cells have white-coated iron steps, surmounted by highly-polished rails.

In the four cell houses windows twenty feet from the floor admit a flood of light from three sides. There are forty-two cells on a gallery, eighty-four on a tier and 420 in the room. Each cell is electric lighted and has running water in it. Immense fans automatically supply the cells with fresh air every seven minutes. Twenty-five feet above the floor are isolated galleries from which, in case of mutiny, armed guards can command every inch of the cell house. These galleries can be reached only from the outside.

The buildings are of iron, steel, concrete, stone and brick. No wood is used in the construction. There are 1,801 prisoners under Major R. W. McClaughry's care; 650 are white, 294 are colored, 108 are Indians and seven are Mexicans. There are fifty-one military prisoners.

The prisoners eat in a dining-room finer than those housed by a majority of the first-class hotels of the country. Two thousand prisoners, six at a table, can sit down at once in the immense room. The walls are of white enamel brick, wainscoted with white marble six feet high. Windows on three sides make the room as light as day. Hundreds of electric lights stud the walls and ceiling. The ceiling is fifty feet high at the center and spreads over the room like a great white inverted bowl.

The kitchen is immaculately clean. It has a range large enough to cook for 2,000 convicts.

Two immense ovens, revolved by electricity, are used in the bakery. Aluminum dishes are used in the kitchen and dining-room.

The chapel will seat 2,000. One-half of it is given to the Protestants and one-half to Roman Catholics. There is a large stage at the end for concerts to be given by convicts. An ice plant of two tons a day capacity is now building.

All the main buildings are so connected that each may be reached by corridors twenty feet wide. These are paved with a composition called litholite—rubber and wood fiber woven into the cement—which gives the effect of walking on rubber matting and deadens the footfall.

The boiler plant and electrical plant are separate from the other buildings. A tunnel several feet under the ground conveys the pipes and wires to the main building. Shower baths in the laundry enable all of the 1,000 or more convicts to bathe within one hour's time. Eight acres in the grounds are set aside for athletic games. "Good" convicts may play baseball and other games on Saturdays.

The old prison is still used for the records and a few convicts, but eventually will be turned into a military prison. Major McClaughry, the Warden, is one of the noted criminologists of the country. Prison experts from all over the world have visited the new prison here, as it is regarded as a model. A German expert said he would recommend to his Government the construction of prisons along the lines of this one.

River News

Gage 24.3 and falling.

The Queen City is tonight's Pittsburgh packet.

The Fred Hartweg has gone to Arkansas City after a tow of lumber for the Ohio river.

Mrs. William Bedillion, who has been wharf-boat manager at Saterville, W. Va., for several years, has disposed of her interests and will retire from river business.

The high winds of the past three days caused some damage to the coal fleets in the Cincinnati harbor. The waves were so high that they swept over the gunwales of the barges. Up to date the present season has not been of as serious a loss as the two preceding when the river was frozen and navigation was impossible for many weeks.

When the Ohio river is locked and dammed and there is a nine-foot stage in it all the year round from Pittsburgh to Cairo there will be a number of the finest and fastest boats ever seen running on the Ohio. Railroads will be unable to compete with them carrying freight and people, for they will be able to make as good time and give cheaper rates of transportation as railways can do. Then the business taken from the river by railroads will be returned to it and boats will prosper as in palm days.

WOMEN'S NEGLECT

SUFFERING THE SURE PENALTY

Health Thus Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

Miss Kate McDonald

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, or other female weakness.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Kate McDonald of Woodbridge, N. J., writes:

Dear Mrs. Pinkham:

"Restored health has meant so much to me that I cannot help from telling about it for the sake of other suffering women."

For a long time I suffered untold agony with a female trouble and irregularities, which made me a physical wreck, and no one thought I would recover, but Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is.

For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge. Her advice is free and always helpful. Address, Lynn, Mass.

RAISING A RUMPUS

Charges Filed Against Postmaster Mathews of This City

Yesterday's Cincinnati Enquirer contained this special from this city—

MAYSVILLE, KY., January 18th.—The Republicans here are after Postmaster Clarence Mathews' scalp. Today charges of incompetency and selling stamps to merchants in large quantities in order to increase his salary were forwarded to Washington. The affidavits bore the names of the merchants to whom he is alleged to have sold. The complainants also state that he does not pay any attention to his duties, but depends upon his assistant and the clerks.

WHO IS HE?

Reputed Maysville Man May Be From Manayunk or Manitoba

This is the sort of news one finds in the "entertaining" big dailies—

MEMPHIS, TENN., January 17th.—Although he stoutly maintains his innocence, claiming that he is a farmer living near Maysville, Ky., the local police profess to believe that they have one of the shrewdest film men in the business in custody. J. R. Brownlee, who is held pending investigation, could not account for the presence in his traps of more than a thousand loaded dice, marked playing cards, a brace and bit and a case filled with various kinds of drugs. On his way to prison he threw away a baggage check, but this was recovered, and investigation led to the discovery of the crooked gambling tools.

No such name as J. R. Brownlee appears in the records of this city or county.—ED. LEIGER.

MAKE IT BIGGER AND BETTER THAN EVER.

No man in Maysville should fail to help make the Seventh Annual Tobacco Fair a greater success than any of the precedings. Remember competition is open to the world. Write your friends inviting them to come and bring exhibits. Every farmer in Mason county should make an exhibit of something produced by him.

DON'T BE SATISFIED.

Why Be Content With Relief from Backache when a Maysville Woman Shows You The Cure.

Don't be satisfied with relief. Brief freedom from backache. Reach the root of the trouble. Cure the cause, and backache disappears for good. It can be done. Doan's Kidney Pills make lasting cures. Experiences of Maysville people prove this. Here's one Maysville case of it: Mrs. Lizzie Bridges, wife of Elmer Bridges, of 206 West Third street, Maysville, Ky., says: "In March, 1900, I gave a testimonial praising and recommending Doan's Kidney Pills and in it I told how I learned the great value of this remedy. I had been troubled with a bad back and weak kidneys from girlhood, and in my efforts to find a cure I tried every medicine I could find but without benefit until I began using Doan's Kidney Pills, procured at J. Jas. Wood & Son's Drugstore. They proved just the remedy I needed, went right to the cause of the trouble and as a result brought relief that led me to testify in their favor. I have never been without Doan's Kidney Pills in the house since. Every spring I take a box whether symptoms of kidney trouble are apparent or not, and in this way keep the kidneys in good condition and guard against attacks of my old trouble." For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.
